https://www.youtube.com/watch?v=n3W7H_tg4lM

0:00
and the months leading up to the
0:18
presidential election corporate media
0:20
work in hyperdrive to sell Hillary
0:22
Clinton to America party loyalists on
0:24
both sides became frantic that the
0:26
candidate they helped create to kick the
0:28
Empire's throne with unpredictable
0:30
consequences
0:31
amidst a curtain of unquestioning in the
0:33
Atlantic media coverage a bombshell was
0:36
dropped by WikiLeaks just weeks before
0:38
the election exposing the inner workings
0:40
of the clean click an ongoing series of
0:43
thousands of emails from John Vanessa
0:45

the chairman of Hillary's presidential
0:47
campaign while John Podesta treated as
0:50
just a well-meaning Clinton supporter
0:52
what is privacy unjustly exposed is
0:55
actually one of the most powerful people
0:56
in Washington operating mostly
0:58
behind-the-scenes until now John and his
1:01
brother Tony are considered two of the
1:03
most influential corporate lobbyists in
1:05
the world
1:07
John has been dubbed one of Washington's
1:08
biggest players by the New York Times
1:10
whose clients are going to get a
1:12
blueprint for how to succeed an official
1:14
Washington and he's much more than just
1:17
a millionaire lobbyists he's also been
1:20
the man behind Bill Clinton Barack Obama
1:22
and Hillary Clinton the Washington Post
1:26
praised his political experience saying
1:28
no single person may be more responsible
1:31
for shaping ambitions of Obama's second
1:33
term than he but we should pay no
1:36
attention to what the emails of one of
1:38

the most powerful men in the world say
1:40
instead we should talk about Russia
1:43
well Chris I i think we should take a
1:45
step back and say how we got here which
1:47
is that the Russians as the u.s. Senior
1:51
of numbers of US government confirmed
1:53
have been hacking into Democratic
1:55
accounts and now the active in the like
1:57
of course you are very clearly clothing
2:01
for WikiLeaks and what's really
2:02
important about WikiLeaks is that the
2:05
Russian government has engaged in
2:08
espionage against
2:10
American George when you see something
2:12
postmarked from Russia you should be
2:15
afraid to open up the documentation
2:16
legit when you think when I don't know I
2:18
I refused to open these documents with
2:21
the big money from a foreign person to
2:23
the foundation at the time she's running
2:25
for president I if this was as you can
2:27
see those emails this is a scheduling
2:28
matter and we didn't want her going
2:30

overseas that I didn't want her going
2:31
overseas before the campaign was kicking
2:34
off I'm but again this is these are
2:36
stolen documents stolen by the Russians
2:39
have now confirmed from John Podesta
2:40
they are being put out for exactly this
2:42
purpose you know I i know that Russia
2:45
and other forces of love us to have a
2:48
debate this is exactly what they want
2:50
they want us to have a debate about the
2:52
internal structure Hillary campaign
2:54
what's true what's not true and i'm just
2:56
not going to play that as president I
2:59
will make it clear that the United
3:01
States will three cyber attacks just
3:04
like any other attacked we will be ready
3:07
with serious political economic and
3:10
military responses just one problem the
3:14
evidence are pointing to proving kui
3:16
behind the emails is not evidence at all
3:19
only to intelligence agencies the Office
3:22
of the Director of National Intelligence
3:24
the department of homeland security have
3:26

issued a joint statement used by the
3:28
Clinton campaign is so-called truth
3:31
it's purely speculative saying the
3:33
alleged tax are consistent with the
3:35
methods and motivations of Russian
3:37
directed efforts these tests and
3:39
disclosures are intended to interfere
3:41
with the u.s. election process such
3:43
activity is not new to Moscow consistent
3:47
with the methods so not really proof at
3:49
all
3:50
the FBI also resisted getting behind the
3:53
accusation on the basis of the claim is
3:55
inconclusive but the media simply
3:58
repeats the claim as gospel while never
4:00
mentioning the other logical ways
4:02
possesses email could have gotten out
4:04
for example his username was his own
4:07
name and password was literally password
4:10
and 2015 he left his cellphone in a cap
4:13
and in March 2016 investigators email
4:17
login to hackers after fine for a
4:19
phishing scam appearing to come from
4:21

google already typed in his info
4:23
not to mention the thousands of skilled
4:25
hackers who are not part of a Russian
4:26
government operation or disgruntled
4:28
insider who could have weekly emails
4:30
when you look into the Podesta email the
4:33
breadth of what they show explains why
4:35
they're running such a desperate the
4:37
flexion campaign part of the WikiLeaks
4:39
drove our transcript to Hillary's
4:41
infamous speeches she gave the banks and
4:42
other corporations for which he earned
4:44
millions of dollars in one she assures
4:47
your corporate sponsors that what she's
4:49
saying that voters in her true position
4:52
politics is like sausage being made it
4:54
is unsavory it's always been that way
4:57
but we usually end up where we need to
4:59
be but if everybody is watching you know
5:01
all the background discussion even deals
5:03
and people get a little nervous to say
5:05
the least so you need both the public
5:07
and a private position and the way she
5:10

discusses accountability for wall street
5:12
for number one donor is very different
5:15
behind closed doors and one speaks to
5:17
goldman sachs she criticized the fact
5:19
that the banks were made into the bad
5:21
guys for their financial collapse and
5:23
she thinks they're very banks who rigged
5:24
and crash the economy are those who
5:27
should be in charge of it I think
5:28
there's a lot that could have been
5:29
avoided in terms of both
5:30
misunderstanding and really politicizing
5:33
what happened with greater transparency
5:34
you guys help us figure it out and let's
5:37
make sure we do it right this time the
5:40
people that know the industry better
5:42
than anybody are the people who work in
5:44
the industry
5:45
another major fine they like to keep it
5:47
is the unlawful coordination between
5:49
Hillary super PAC correct the record and
5:51
her presidential campaign a caveat that
5:55
devastating Citizens United ruling is
5:57

that super PACs and nonprofits must
5:59
remain independent of campaign yet
6:02
emails prove that correct the record is
6:03
just another multi million dollar arm of
6:06
the Clinton campaign making
6:07
contributions between a super pac and
6:09
campaign indistinguishable this short
6:12
sampling of the Podesta email trove is
6:14
alone a major expose of the true
6:16
character of Hillary Clinton but beyond
6:18
that understanding who John Podesta is
6:20
and his political rise sheds light on
6:23
who really pull the levers of power in
6:25
our society
6:26
John and brother / lobbying partner Tony
6:30
have been rude since childhood in the
6:32
most elite circles of American politics
6:34
their mother Mary Podesta was a
6:37
well-known fundraiser at the center of
6:39
the political scene the Washington Post
6:41
described her as a staple at political
6:43
dinner parties whose home cook dinner parties
6:45
quote raised millions of dollars for
6:47

candidates the Podesta brothers would
6:49
employ the same network building style
6:51
with personas that reflect our high
6:53
society characteristics are also both
6:55
known for their fine dining culinary
6:57
skills and deal-making dinner parties
6:59
both are collectors of fine art and are
7:02
even known to have a competition between
7:04
them of who has the better collection
7:05
you know like most Americans do through
7:08
the seventies the young Podesta began
7:10
building their political web John first
7:13
befriended Bill Clinton as an undergrad
7:15
in college
7:16
both brothers work for Democratic Party
7:18
campaigns in our younger years with
7:20
their growing political connections also
7:22
came business connections have
7:24
accumulated a wide network of business
7:26
and political insiders the up-and-coming
7:28
brothers sounded a corporate lobbying
7:30
firm Podesta associates known today is
7:33
the destiny group in 1987 the brothers
7:36

relationships functions as different
7:38
arms of a corporate lobbying beast
7:40
John's career put them inside the
7:41
government while Tony focused on the
7:43
business side the same year the brothers
7:46
debut their new loving from John became
7:48
chief counsel for the Senate Agriculture
7:50
Committee and who was possessed
7:52
associates first corporate client
7:54
genatech a biotech company which had a
7:58
lot to gain from deregulating the
7:59
agricultural industry the Podesta group
8:02
then became the lead advocate for
8:03
massive deregulation of the FDA on
8:06
behalf of genatech and other
8:07
corporations after Podesta was promoted
8:11
by build to a deputy chief of staff in
8:13
1997 Gina's brothers firm achieved a
8:16
major victory the Clinton administration
8:19
signed deregulation act of pedestrians
8:21
have been lobbying for possesses rise in
8:23
power came as he proved his loyalty to
8:25
the Clinton team becoming the cleanup
8:27

guy for the Clintons many shady scandals
8:30
other than Bill Clinton's sex scandals
8:33
of which there were many John Podesta
8:35
found himself building experience a
8:37
Clinton partner we need covering up
8:39
their financial tricks and insider
8:41
dealings there is Hillary's insider
8:43
trading scandal where it was discovered
8:45
that she used her powerful connection to
8:47
turn a cool hundred grand
8:49
she was aided by a Tyson executive in a
8:51
parent exchange for millions of state
8:53
funds awarded to the corporation by
8:56
Governor Bill Clinton breaking many
8:58
legal rules but turning one thousand
9:00
dollars into a hundred thousand dollars
9:02
overnight when the scheme was uncovered
9:05
modesto is called in the variant and
9:08
then there was whitewater we're both
9:09
bill and hillary were subpoenaed again
9:12
with bills arkansas governor connections
9:15
the Clinton couple was embroiled in a
9:16
real estate scheme that involved
9:18

hundreds of thousands of dollars in
9:20
fraudulent loans of course they counted
9:22
on Podesta to run the clean-up operation
9:24
and his work did not go unrewarded
9:27
he was promoted bills top assistant as
9:29
chief of staff
9:30
it's no wonder that the Clinton scandal
9:32
manager is currently the top of the list
9:34
to be Hillary Clinton's chief of staff
9:36
to after dutifully serving their first
9:39
presidency throughout John Podesta is
9:41
political rise of augusta group swelled
9:44
and funds after all these skilled
9:46
lobbyists have stating the White House
9:48
and a lifetime in America
9:50
actions as a result today the Podesta
9:52
group both of stellar corporate clients
9:54
like Walmart british petroleum BP and
9:57
war profiteer lockheed martin it also
10:00
includes financial giant Bank of America
10:02
and sallie mae war profiteer is general
10:05
dynamics and radians Media Group's
10:07
national association of broadcasters
10:09

National Public Radio NPR biotech giant
10:12
engine genatech and synthetic genomics
10:15
energy giant Duke Energy and Sunoco
10:19
healthcare and Big Pharma covidien murk
10:22
of artists and other corporate giants
10:24
like Nestle but the best of duo's true
10:27
power in Washington would be going to be
10:28
fully realized in 2003 when John Podesta
10:31
fan of the think tank Center for
10:33
American Progress the center for
10:35
american progress builds itself is
10:37
simply a policy advocate but in reality
10:39
it's just another corporate lobbying
10:41
term with its well-known inside access
10:43
the capm choices at the top corporate
10:46
donors with roundtable discussions with
10:48
Hill national leaders board of directors
10:51
include director of golden west
10:52
financial the second-largest savings and
10:55
loan association in the US and building
10:58
our banker Tom stare among others
11:00
protested Capt trustees includes a
11:03
goldman sachs vice-president a notorious
11:06

war criminal Madeleine Albright the cp's
11:09
donors to fuller picture of the group's
11:11
character its public donors include
11:13
billionaire regime change hundred George
11:15
Soros and billionaires who made more
11:18
billions driving a subprime mortgage
11:20
crisis urban Marian Sandler they're
11:23
joined by big banks of citigroup and
11:25
wells fargo war profiteer northrop
11:27
grumman in america's health insurance
11:29
plans but as a so-called nonprofit
11:32
Podesta center doesn't have to disclose
11:34
its donors the nation obtain their
11:37
secret sponsors list which included even
11:39
bigger network of shady corporations it
11:42
includes comcast walmart in general
11:44
motors energy giant pacific gas and
11:46
electric war profiteers General Electric
11:49
boeing and lockheed martin and the
11:51
right-wing government of Turkey this
11:54
buying access club has paid off a
11:55
lucrative we for both sides
11:57
especially when a Democrat return to the
11:59

White House John Podesta was tap delete
12:02
Obama's transition team with his golden
12:04
rolodex to fill the new administration
12:05
Podesta stack the White House with
12:08
allies he knew would please the banks
12:10
and corporations in their corner for
12:12
example WikiLeaks revealed a month
12:14
before obama won the two thousand eight
12:16
election an executive at citigroup a
12:18
public donor to see AP emailed Podesta
12:21
the subject line was list and in it was
12:25
his recommendation for 31 cabinet-level
12:27
positions the exact Michael Froman wrote
12:31
the list will continue to grow but these
12:34
are the names and date that seemed to be
12:35
coming up as recommended by various
12:37
sources for senior level jobs this
12:40
random guy from citigroup offering his
12:42
banking partners thought should run the
12:44
entire country ended up being almost a
12:46
hundred percent accurate the fast
12:49
majority of the preliminary list ended
12:51
up coming true Roman even with the point
12:55

person for applicants forwarding Podesta
12:57
resumes from other insiders begging to
13:00
be on the team today from served in the
13:03
US Trade Representative and the Obama
13:05
administration but this was just
13:07
beginning at the possesses new influence
13:09
with unprecedented access to the White
13:11
House records show that in 2009 the
13:14
Podesta family at meetings in the White
13:15
House 25 times in contrast only one such
13:19
as it was made by Democrat Nancy Pelosi
13:21
was Speaker of the House John Podesta
13:24
alone visited the White House at least a
13:26
hundred thirty times between 2009 in
13:29
2013 the corporate representative was
13:32
widely considered an informal adviser to
13:34
the administration the Podesta tag-team
13:38
food by 2006 the assets from Podesta
13:41
center dropped from 23 million dollars
13:44
to 20 million dollars with the best of
13:46
stacked obama admin their assets doubled
13:49
to \$49 its staff group from only 20
13:52
prior to obama to 270 by 2013
13:56

likewise the Podesta groups well during
13:59
Obama's presence
14:00
see between 2006 in 2010 Podesta group
14:04
staff tripled and profits doubled John
14:07
Podesta is rising influence build a wide
14:09
and constantly turning revolving door
14:11
between his center its corporate
14:13
sponsors and the government among
14:16
countless examples are Scott Lily a
14:18
former congressman who took simultaneous
14:21
positions of the National Security
14:22
lobbyists to see AP and lobbyists for
14:25
Lockheed Martin Lockheed was also a big
14:27
CP donor at the time Spencer boy was the
14:30
caap so-called expert on turkey secretly
14:33
given millions by the hated in brutal
14:35
regime boy left that position to be
14:38
Obama's Deputy Assistant of European
14:40
affairs which quote develops and
14:42
implements US policy in Turkey rue de
14:46
Leon Bill Clinton's former Deputy
14:48
Secretary of Defense became director of
14:50
lobbying for Boeing a major c.a.p donor
14:53

then senior VP for national security at
14:56
the caap today really simultaneously
14:59
served as the CP lobbyists while on the
15:02
Department of Defense advisory board and
15:04
as a board member of defense contractor
15:06
general dynamics possesses cash for
15:09
favors master is most exemplified by a
15:11
scheme during obama's stimulus plan the
15:14
center for american progress have long
15:15
lobbied on behalf of renewable energy
15:17
clients had a lot to gain from
15:19
supposedly green reforms in particular
15:22
big manufacturer of solar panels
15:24
weatherize homes and so on
15:27
Podesta in the center for american
15:28
progress were of course there to lobby
15:31
for who should get the funds from obama
15:33
stimulus the caap strongly advocated to
15:36
direct stimulus money for a solar panel
15:38
manufacturer called first solar a
15:41
company that the CP claimed no ties to
15:43
First Solar received close to four
15:46
billion dollars of the funds but it was
15:49

discovered afterwards that first solar
15:51
was actually part of the center for
15:53
american progress is so-called business
15:55
alliance of secret donors a fact the
15:58
center intentionally consumed Steve
16:01
spinner the Department of Energy
16:02
stimulus advisor who oversaw the
16:04
transfer funds the first solar and other
16:06
Capt
16:07
science left his government job and the
16:09
deal was done to pick a seat at senior
16:12
fellow the CIP corporate lobbyists jose
16:15
villarreal whose clients include walmart
16:17
Boeing and Dow Chemical simultaneously
16:20
served on the board of directors for
16:22
First Solar and the center for american
16:24
progress during the stimulus payout in
16:26
2015 he was appointed by Hillary Clinton
16:29
of their campaign treasurer John Podesta
16:31
himself sits on the board of directors
16:33
of an energy company and an investment
16:35
firm who raked in massive amounts of
16:38
green energy stimulus funds over a dozen
16:41

other corporations donating to the caap
16:43
received these green stimulus funds from
16:46
Obama's White House while the clean
16:49
energy John delivered billions who is
16:51
supposedly environmentally-friendly
16:52
donors tony was busy raking in cash from
16:56
big polluters like ExxonMobil to lobby
16:59
to export fracking and BP during their
17:02
catastrophic oil still the Podesta group
17:05
successfully stalled congressional
17:06
increase in tempe disaster the
17:09
possessive and the Quintin profited off
17:11
many other backroom deals during this
17:13
time while today being the lead
17:15
fearmongers about Russia had no problem
17:18
getting paid by Russian oligarchs apart
17:20
from the Podesta group working for
17:22
Russia's biggest state-owned bank John
17:24
help secure the Russian purchase of a
17:26
massive mining company called uranium
17:28
one which would require the approval
17:30
Hillary State Department uranium one
17:34
with mining rights to twenty percent of
17:35

uranium in the US was owned by a good
17:38
friend of the Clintons Frankie östra
17:40
Russian elites funneled millions to the
17:42
Clinton as well as a hundred eighty
17:44
thousand dollars to the Podesta group to
17:46
grease the wheels the sale was
17:49
predictably approved while campaigning
17:54
in April 2015 Hillary started receiving
17:57
backlash for this apparent pay-to-play
17:58
from our state Department that month has
18:02
recently revealed by WikiLeaks State
18:04
Department official Jose Fernandez had
18:06
written to Podesta saying he wanted to
18:08
do all he could to help her campaign
18:10
five days later Fernandez issued a
18:13
statement saying he was responsible for
18:16
the State Department improving the deal
18:17
and Hillary had nothing to do with it
18:20
scandal averted he's also on the board
18:23
of productive Center for American
18:24
Progress the value of the pedestrians
18:28
access only grew when John Podesta
18:30
became Obama's senior advisor and 2014
18:33

while having stepped down as the
18:35
center's president he retains control
18:36
through its board of directors and his
18:39
appointed successor near attendant
18:40
Podesta was already on his way into the
18:43
next administration
18:45
recruited in 2015 that Hillary Clinton's
18:47
campaign is now expected to get a top
18:50
cabinet position today while Podesta run
18:53
Hillary's path to the White House his
18:55
Center for American Progress advocates
18:57
for game-changing policies for example
19:00
her promise to bring the sure to be
19:02
disastrous bombing campaign against
19:03
Syria and while the center help her sell
19:06
the next so-called humanitarian
19:07
intervention
19:08
it will also be working hard to protect
19:10
our most important shared assets brutal
19:13
foreign dictatorship the Podesta group
19:15

20:36
of favors by corporations informed
20:38
government from the country's most
20:39
powerful politicians would be a major
